# In Foreign Lands: The Migration of Scientists for Political or Economic Reasons

 Birkhäuser

---

## Trends in the History of Science

*Trends in the History of Science* is a series devoted to the publication of volumes arising from workshops and conferences in all areas of current research in the history of science, primarily with a focus on the history of mathematics, physics, and their applications. Its aim is to make current developments available to the community as rapidly as possible without compromising quality, and to archive those developments for reference purposes. Proposals for volumes can be submitted using the online book project submission form at our website [www.birkhauser-science.com](http://www.birkhauser-science.com).
